No Time For Reflection

By Ben Lee

When you shoot laser from a letter, it needs to reach the other one of the same letter. You do this by adding mirrors. You can only install two mirrors per row and column. All mirrors will look like / or \. Note that number 26 is missing.

	F	B	I	J	E	
A	16	23	3	1	7	**J**
B	15	20	8	25	12	**I**
A	6	11	22	10	9	**H**
C	13	14	24	4	19	**G**
D	2	17	5	21	18	**H**
	E	F	D	G	C
